Observation

#### Observation 1:

An inspection was performed by Agents with the Ohio State Board of Pharmacy on May 22, 2017. During that inspection, Agents asked a Prescription Supply representative for their policies and procedures on reporting suspicious orders to the Ohio State Board of Pharmacy. Prescription Supply provided the Agents the following: Suspicious Order Monitoring Statement and Retail Pharmacy Questionnaire 2016.

However, Prescription Supply has not reported a suspicious drug order to the Ohio State Board of pharmacy during at least the years of 2014, 2015, 2016, and 2017. Therefore, it appears that Prescription Supply does not have a suspicious order reporting process compliant with rule 4729-9-16 (H)(1)(e)(i), which states, in part:

(H) Wholesale drug distributors shall establish and maintain inventories and records of all transactions regarding the receipt and distribution or other disposition of dangerous drugs.

(1) These records shall include, but shall not be limited to, the following information:

(e) A system shall be designed and operated to disclose orders for controlled substances and other dangerous drugs subject to abuse.

(i) The wholesaler shall inform the state board of pharmacy of suspicious orders for drugs when discovered. Suspicious orders are those which, in relation to the wholesaler's records as a whole, are of unusual size, unusual frequency, or deviate substantially from established buying patterns.

Warning with Required Written Response for:

Explain in detail how your policies and procedures for identifying and reporting suspicious orders
meet the requirements of rule 4729-9-16(H).

 Explain in detail why there have been no suspicious orders reported to the Board for years 2014, 2015, 2016, and 2017.

RESPONSE: We have not had any suspicious orders as we have received prior justifications/explanations for quantity changes/spikes/terminations.

Observation 2:

License

- Prescription Supply, Inc.

A subsequent review of wholesale sale data reported to the Ohio State Board of Pharmacy for drugs containing Oxycodone 10mg and Oxycodone 30mg indicated many sales appeared to be of unusual size, unusual frequency, or that deviate substantially from established buying patterns, but were not reported to the Board of Pharmacy as suspicious orders. Specifically, we observed spikes in sales for specific months and sales that seem to steadily increase or spike and then abruptly stop. See referenced sales in the attached spreadsheet.

#### Warning with Required Written Response for:

 Please explain the rationale for <u>EACH</u> of the monthly sales noted in attached spreadsheet, including but not limited to:

Why did Prescription Supply determine it was not necessary to report any of the sales to the Board of Pharmacy as a suspicious order?

For sales that steadily increase or spike and abruptly stop, please explain rationale for the stoppage.

Explain why the instances of high volume sales identified in the attached spreadsheet, including those that increased over time, were not identified as suspicious orders.

 In the attached spreadsheet, where the Board has identified abrupt cessation of sales, did Prescription Supply refuse to continue selling to the particular customer? If so, explain why including, but not limited to:

Was the cessation of sales due to you identifying the sale as a suspicious order? Did the customer cease sales on their own? Was there some other explanation for the stoppage?

#### 33) Inspection Affirmation

#### 1) Inspection Affirmation

#### Observation

This inspection report is being emailed to you to respond to items surrounding suspicious orders. Please note, that a written response is required from you within five (5) business days and should be sent to writtenresponse@pharmacy.ohio.gov with a copy of this inspection report.

If you have any questions, please contact Agent David Gonzalez at (937) 538-0774 or by email at David.Gonzalez@pharmacy.ohio.gov
